CROSS-REFERENCE TO RELATED APPLICATION

The invention described and claimed hereinbelow is also described in German Patent Application DE 10 2004 042 465.9 filed on September 2, 2004. This German Patent Application provides the basis for a claim of priority of invention under 35 U.S.C. 119(a)-(d).

BACKGROUND OF THE INVENTION

Page 1, after line 25 insert:

SUMMARY OF THE INVENTION

Page 2, delete lines 1-13 and substitute therefor:

The hand-held power tool with replaceable tool fitting is designed in accordance with the present invention, and as a result it does not matter what rotation angle at which the tool fitting is mounted onto the

machine. Despite this fact, the tool fitting finds its own way into the correct position for the detent engagement.

Page 2, cancel lines 1-18 and substitute therefor:

When the hand-held power tool with replaceable tool fitting is designed in accordance with the present invention, it does not matter what rotation angle at which the tool fitting is mounted onto the machine. Despite this fact, the tool fitting finds its own way into the correct position for the detent engagement.

BRIEF DESCRIPTION OF THE DRAWINGS

Figures 1-4 are views showing a tool fitting in various stages of its being slid onto a hand-held power tool.
